

# Reproductive Health and Digital Finance in LMIC Adolescents

## Description

This dataset contains data from two sources. The first dataset is from The World Bank: Gender Data Portal, an organization that provides financial and technical help to developing countries. The second dataset is from the Guttmacher Institute's "Adding It Up" study that contains estimates of the need for, the impact of, and the cost of fully investing in sexual and reproductive health care in LMICs. This dataset contains data from 5 main questions about technology access in combination with sexual and reproductive health data of females age 15-19. The purpose of this dataset will be to identify any correlation between access to digital finance and sexual and reproductive health outcomes among adolescent females.

## Keywords

- Adolescent
- Technology
- Female
- Development
- Reproductive Rights

## How to use it?

Intended Use

Intended Domain. University course

Intended Use. INFO 201 final project

Other Responsible Uses. Investment

Other Responsible Uses. Government

Known Uses

INFO 201 final project.

Restrictions on Use

no

Do Not Use

Domain. NA

Monetary gains. sensitive topic about people's lives

## About the dataset

People	
Owned by	Rino Hamanishi, Anya Higashionna
Created by	Anya Higashionna, Rino Hamanishi
Maintained by	Anya Higashionna, Rino Hamanishi
Funding	INFO 201
Management	INFO 201
Technical information	
Publish Date	2023-05-07
Format	CSV
Instances	87 observations, 96 features
Version	1.0
License	NA
Collection timeframe	2005-2018
Collection process	For this dataset we pulled our data from two sources from the internet. The World Bank: Gender Data Portal and OSF.
